

LOVEDAY & CO

Dear Future Loveday Member

I would love to invite you to experience the extraordinary at Loveday, just like I have.

From the moment I walked through the doors, I knew Loveday was perfect. The team notice every little detail and make life brighter in so many thoughtful ways. It feels like home, yet even better, because I have the freedom to enjoy all the things I love and discover new passions: art, pilates, yoga, pottery or simply sharing a meal with new friends are just some of the daily experiences. I never thought I would bake again, but here I am making scones and baking my favourite cakes with the chefs.

But what truly makes Loveday special is the warmth, the friendships and the sense of belonging. Just as importantly, I feel completely reassured knowing that expert nursing care is always there when I need it - discreet, personal, and designed around me. Whether it's daily wellbeing support, help with medication, or simply the comfort of knowing clinical expertise is always close by, it gives me and my family such peace of mind.

As the Founder Member of Esher, it would be my pleasure to invite you for afternoon tea and experience for yourself just how extraordinary life can be.

Warm regards,

Eileen
